

To Whom It May Concern,

We the under signed (PSOs) Protective Security Officers working on GSA, FPS Contract #HSCEE-C09-D00-006 at 800 K Street NW Washington D.C., Are all in mutual agreement that we no longer want nor do we recognize National Association of Special Police and Security Officers (NASPSO) as the active union at this contract site. Furthermore we no longer want nor do we recognize Caleb Gray-Burriss as the active union representation at this contract site. The basis of this petition would primarily be due to neglect and absenteeism of the above stated union and representative. If this union and representative have any claim to this contract site, then we would contest that right to claim was forfeited long ago. This union has done absolutely nothing at this site except abandon it. Whether inattentive or unwilling, this union has demonstrated gross neglect and may even now be a debunked union, as we have no knowledge or contact even now from this entity described as a union. At this time we have no officers that are shop stewards and no organization due to the lack of representation and union resources at this site. We would however welcome and request a vote that would include Caleb Grey- Burriss and NASPSO, among other unions, to be placed on the ballot to show beyond a shadow of a doubt that there is no Officer at this site whom wishes to have NASPSO and Caleb Grey- Burriss as their representation.

Respectfully,

All the Officers at 800 K Street

Andy Amhayes
